PROFESSIONAL SUMMARY

Software Engineer with ~9 years delivering production-grade systems across full stack, cloud, and DevOps domains. Deep expertise in JavaScript/TypeScript with hands-on experience in .NET, React, and both AWS and Azure. Known for improving development practices, automating workflows, and acting as a technical reference within engineering teams. Proven ability to lead distributed teams, mentor engineers, and improve delivery practices in remote, agile environments.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, C#/.NET Core, React, Angular, AngularJS, Node.js, Python, Java

Cloud & DevOps: GitHub Actions, AWS (Lambda, DynamoDB), Azure (Functions, App Services), GCP, Docker, Jenkins, Ansible

Databases: PostgreSQL, MySQL, SQL Server, DynamoDB, MongoDB, CosmosDB

Practices: Microservices, REST APIs, CI/CD, SOLID principles, Agile, Mentoring, AI-assisted development

PROFESSIONAL EXPERIENCE

Software Engineer

Feb 2020 – Present

DMSi Software (via Jalasoft) · Omaha, Nebraska · Remote

Tech Stack: JavaScript, TypeScript, AngularJS, GitHub Actions, CI/CD, AI-assisted dev tooling

- Own and maintain 2 production systems on the Rollbase low-code CRM platform: a JavaScript-based CRM customization layer and an embedded AngularJS widget, as part of a 6-person cross-functional team (devs, QA, product).
- Cut manual release and permission effort by 50% by automating workflows with GitHub Actions.
- Introduced code review standards and CI processes that measurably reduced rework and improved code quality across the team.
- Own production support and incident resolution, maintaining system stability with minimal downtime.
- Integrated AI-assisted development tooling into the team's CLI workflow, improving development velocity without compromising code quality or security.
- Mentor junior developers, serving as a technical reference point for the team.

Software Engineer (Internal Product Team)

Jan 2024 – Feb 2026

Jalasoft · La Paz, Bolivia

Tech Stack: .NET Core, React, Azure (Functions, App Services)

- Acted as a technical decision-maker on a B2B SaaS product used internally, shaping features and engineering roadmap alongside product and business teams, within a ~10-person engineering group.
 - Maintained and extended .NET Core backend services, improving performance and scalability for production workloads.
 - Enhanced a React frontend, improving load times and user experience for B2B clients.
 - Drove Azure infrastructure decisions that reduced cloud costs by 10–20% while maintaining performance.
-

Software Engineer

Jul 2019 – Jan 2020

Jalasoft · *La Paz, Bolivia*

Tech Stack: .NET Core, Node.js, React, Docker, GCP, Microservices, CI/CD

- Built and maintained a 3-microservice backend architecture alongside a React frontend, as part of a 10-developer team.
- Managed CI/CD pipelines using Docker and GCP-based tooling, reducing manual release effort and improving deployment reliability.
- Improved system monitoring and resource management, contributing to increased uptime.

Software Engineer

Apr 2017 – Mar 2019

Manheim (via Mojix) · *Atlanta, Georgia · Remote*

Tech Stack: Angular, AWS (Lambda, DynamoDB), Python, Jenkins, Ansible, CloudFormation

- Built Angular frontend features and serverless AWS backend services (Lambda, Python, DynamoDB) for an automotive vehicle auction platform.
- Supported CI/CD pipeline automation using Jenkins, Ansible, and CloudFormation.
- Collaborated with cross-functional remote teams to deliver reliable, maintainable software at scale.

PROJECTS

Personal Portfolio & Blog

- Developed a personal website using Hugo to showcase technical projects and articles.

VS Code Extension – Infinite Blue Snippets

- Built a custom extension to improve developer productivity through code snippets and API integrations.

EDUCATION

Master of Science in Computer Science (In Progress)

University of York, United Kingdom — Expected 2028

Diploma in Teaching for Higher Education

Bolivian Catholic University "San Pablo" — 2022

Bachelor's Degree in Systems Engineering

Bolivian Catholic University "San Pablo" — 2017

LANGUAGES

English: Professional Proficiency (B2–C1)

Spanish: Native

Italian: Basic (A1–A2)
